# Cuneiform Digitization Project 17-18

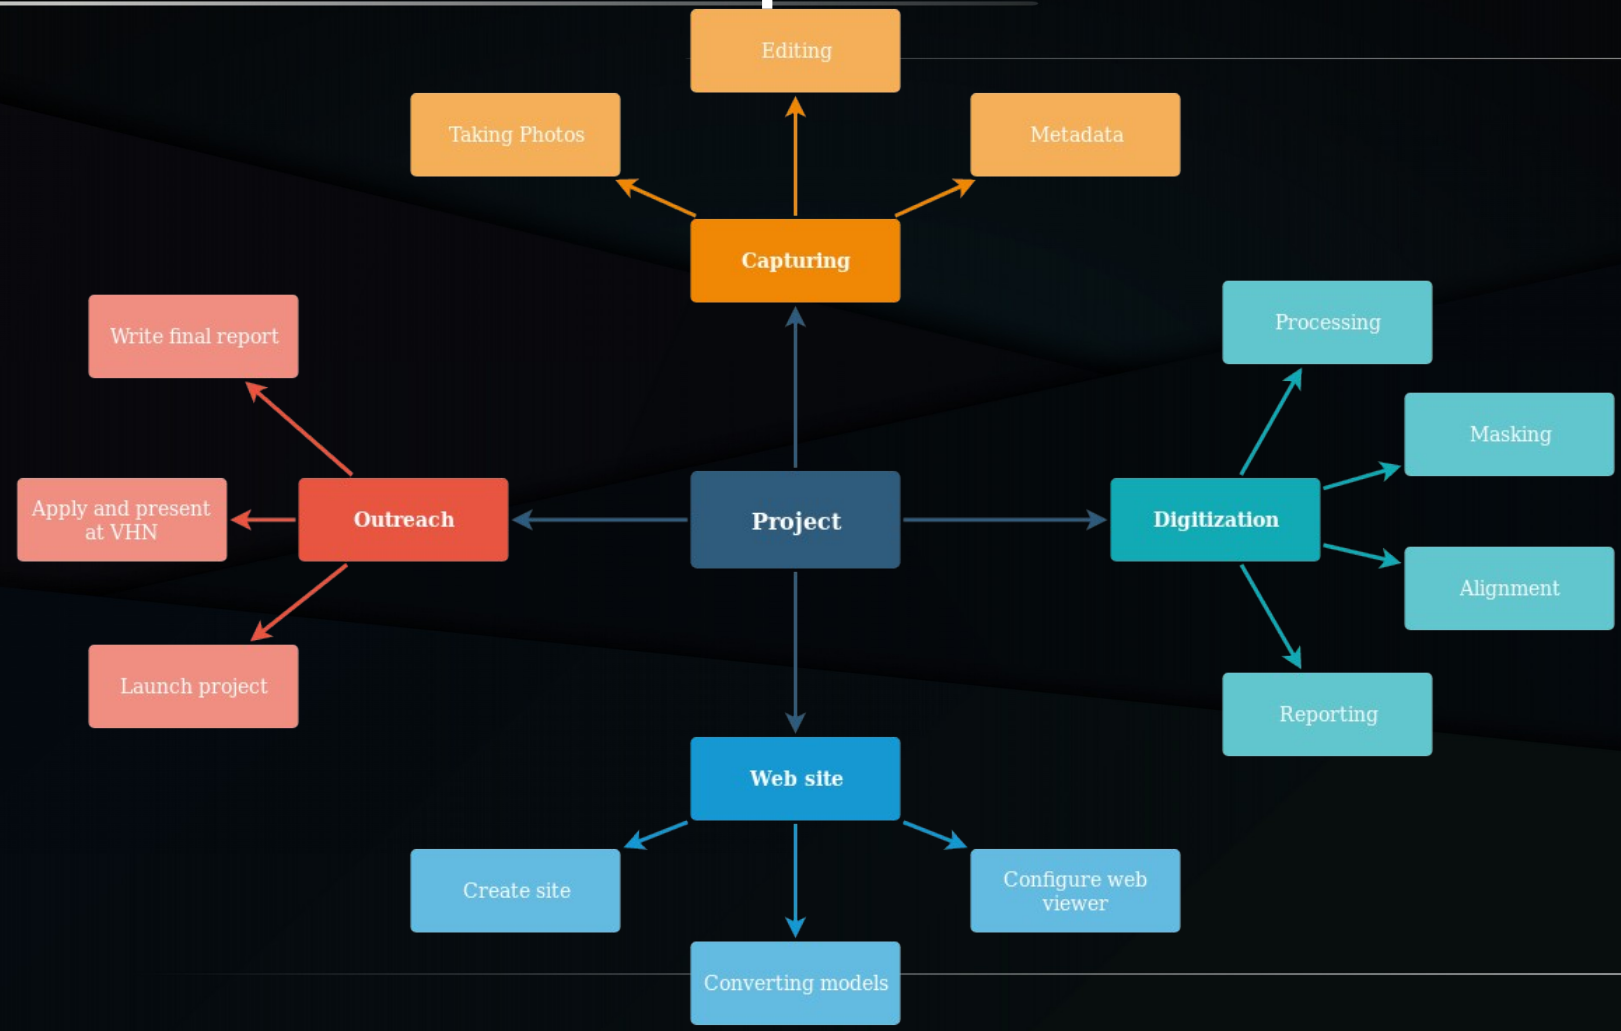

## What we did

- Learned about theory and practice
- Test runs to prepare
- Captured and edited 200+ images per object
- Created 3d models
- Created a web site
- Integrated models into web site
- Wrote a report
- Presented at the Virtual Heritage Network Conference

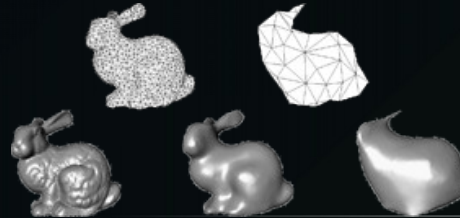

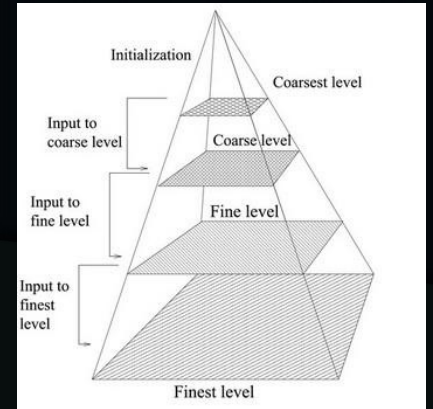

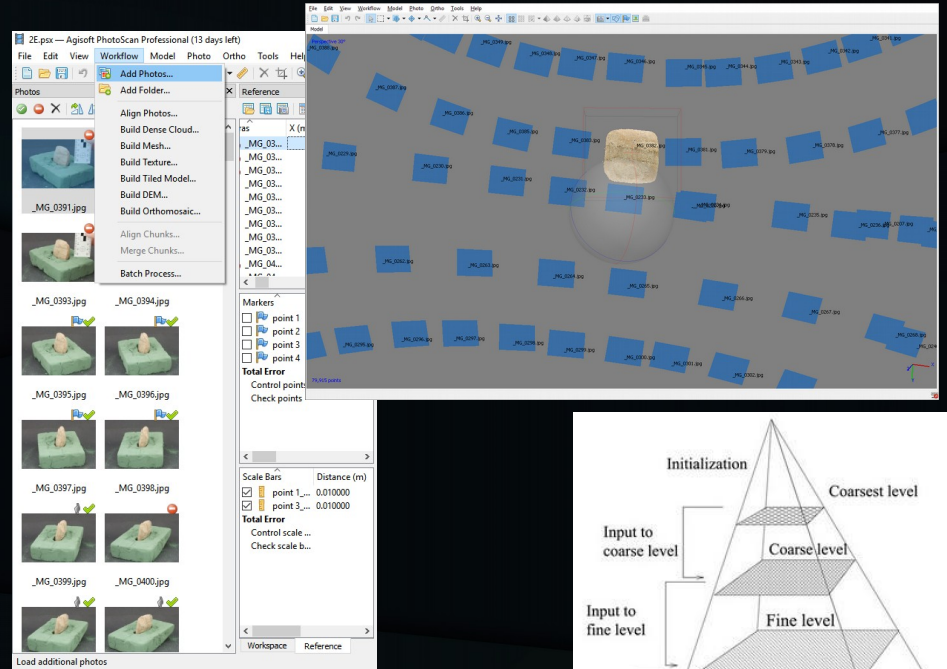

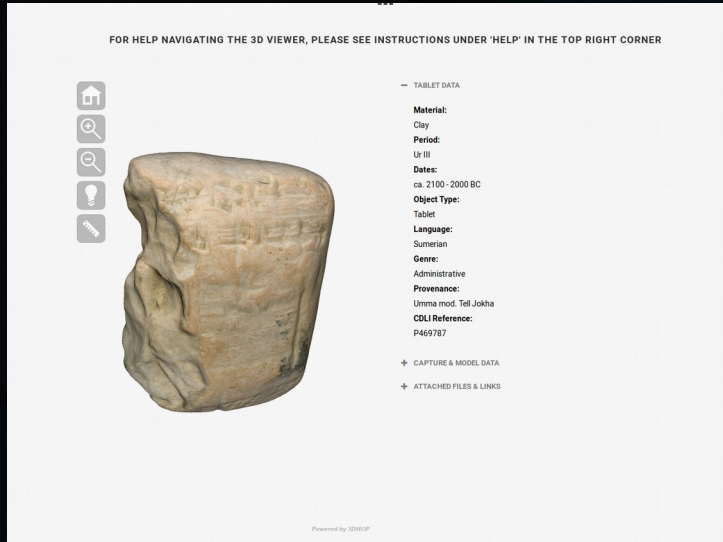

## What you see

- The web site
- The 3d models

---

There are many different types of authorship within one project – Working with digital content adds even more

Not all types “translate” easily – some are almost invisible until they break

Document, Acknowledge, Acknowledge, Acknowledge!
